# HourX Cancellation, Rescheduling & Refund Policy

This policy applies to all bookings made through HourX within the United Arab Emirates and ensures transparency, fairness, and compliance with UAE consumer protection standards.

## 1. Stripe Processing Fees (Non-Refundable)

All payments are processed securely through Stripe. When a customer cancellation is eligible for a refund, the non-refundable bank/payment processing fee is deducted from the amount actually paid. HourX does not charge an additional platform cancellation fee.

Processing fee for all cards: 3.9% of the amount actually paid + AED 1. The fee is deducted only from an otherwise refundable customer cancellation; it is not charged as an additional fee for non-refundable cancellations.

Before the customer confirms a cancellation, HourX will display the processing fee and the estimated refund amount. If HourX or the service provider is unable to deliver the service and the customer elects cancellation, HourX bears the processing fee and refunds the full amount actually paid.

## 2. Cancellation Policy

All time windows are measured against the confirmed scheduled service start time, not the end time or any point within the booking window. The relevant request time is the time HourX receives the customer's request. Where the two-hour and three-hour windows overlap, the two-hour rule takes priority.

| Request Timing or Situation | Rescheduling | Cancellation & Refund |
|---|---|---|
| After booking, within the three-hour pre-service window (subject to the two-hour rule below) | Free rescheduling. | No HourX platform cancellation fee. Refund the amount actually paid, less the bank/payment processing fee. |
| Within two hours before the service start time | Customer may request free rescheduling; the new time requires HourX confirmation. | Only rescheduling requests are accepted. Cancellation refunds are unavailable. The new time must be confirmed by HourX. |
| Service cannot be delivered due to the service provider or HourX | Customer may choose to reschedule. | If the customer chooses to cancel, refund the full amount actually paid; HourX bears the payment processing fee. |
| Service has already started | Rescheduling is unavailable. | Cancellation is unavailable; no refund. |

Refund calculation: Refund = amount actually paid - (3.9% x amount actually paid + AED 1), where a customer cancellation qualifies for a refund. The refund cannot be less than AED 0. The estimated amount is shown before cancellation confirmation.

## 3. Rescheduling Policy

Free rescheduling is subject to available booking time slots and personnel arrangements. A new service time is effective only after HourX confirms it.

Customers may submit a free rescheduling request in the relevant pre-service period described in Section 2. For requests received within two hours of the service start time, only a rescheduling request is accepted; a new time is not guaranteed until confirmed by HourX.

Once the service has started, it cannot be rescheduled.

**HourX-initiated rescheduling**

HourX may propose rescheduling due to provider unavailability, operational issues, safety concerns, incorrect booking details, or force majeure events. If HourX or the provider cannot deliver the service, the customer may accept a new confirmed time or request a full refund.

## 4. HourX-Initiated Cancellations

HourX may cancel a booking when the service cannot be delivered safely or correctly. In cases where the service cannot be delivered due to HourX or the service provider, the customer receives a full refund, including the payment processing fee borne by HourX.

Reasons may include provider unavailability, operational or technical issues, safety concerns, incorrect or incomplete booking details, a service not being applicable, or force majeure events.

Refunds are issued to the original payment method and typically take 5-10 business days.

## 5. Refund Method and Timeline

Refunds are processed back to the original payment method. Processing times depend on the customer's bank and typically take 5-10 business days. Customers receive an email confirmation once the refund is initiated.

## 6. Non-Refundable Situations

Except where HourX or the service provider cannot deliver the service, no customer cancellation refund is available when:

• The request is received within two hours before the confirmed service start time.

• The service has already started.

• The customer does not provide access to the premises.

• The premises are unsafe or inaccessible.

• Fraudulent or abusive booking behavior occurs.

## 7. Policy Updates

HourX may update this policy to remain compliant with UAE regulations and ensure fair treatment for customers and service providers.
