2. Backend & Frontend Order ID Details flow

Navigation Flow

- Click "Order Management" (backend) → opens Order List page
- Click a specific "Order ID" → opens new Order Details page
- Layout/fields per shared screenshots: service items, add-ons, fee reductions, customer information, payment gateway details
- Remove all "Box," "Box 1," "Box 2" labels — display items directly
- Top Control Bar → Generate Invoice → Print → Mail/Bell notification icon (new) — send order status update to customer
- Customer Info & Notes Section
 - Customer Details (with pencil edit icon)
 - Customer Booking Notes (with pencil edit icon), shown on right side of page
- Notes sync in real time from front-end checkout

Front-end Checkout Page

- Add "Customer Booking Notes" text field in personal information section
- Customers can add reminders/requirements (e.g., access code, parking info, call 15 mins before arrival)
- On submission, syncs automatically to backend Order Details page

5. Manual Order Completion Workflow

- **Current Issue:** Orders currently change status to "Completed" automatically the day after the scheduled service date, even if the service was not actually performed.
- **Required Change:** Status updates must be **manual only**. Admins should manually update the status to "Completed" from inside the individual **Order Details Page** after verifying actual service fulfillment.

7. Multi-Service Cart & Single Checkout

Add to Booking Action: Introduced an "Add to Booking" button on individual service cards, allowing users to select multiple services before proceeding to checkout.

Booking Cart Drawer / Indicator: Added a floating or header-level **Booking Cart Summary** that accumulates selected services, displays real-time item counts, and shows the updated total price.

Combined Single Checkout: Users can review all chosen services inside the booking cart and place a single combined order for multiple services at once.

8. Pre-Payment Cancellation Policy Model

- Popup: Show before payment confirmation.
- Title: "Before you confirm"
- Subtitle: "Here's what happens if your plans change."
- Policy Rules:
 - Within 10 min of booking: Refund*
 - 6+ hours before service: Refund*
 - Less than 6 hours before service: No refund
 - Reschedule (3+ hours before): Free
 - Reschedule (under 3 hours): Unavailable
- Note: "*Refund is subject to a non-refundable payment processing fee (Stripe)."
- Link: "Read the full policy"
- Checkbox: "I've read & agree to HourX's cancellation & refund policy" (Required)
- Button: "Agree and continue to payment" (Disabled until checkbox is checked)

11. Order Details & Status Tracking

Common Layout (All 3 Statuses)

- Trigger: User opens any booked service from All Orders.
- Top Back Link: Must say "← Back to All Orders".
- Page Elements: Title, Order ID, Date, Progress Bar, Time & Address, Payment Details.
- Bottom Bar (Unfinished Booking): If user has an uncompleted booking in cart, show bottom bar with button: "Manage Booking →" (clicks to Checkout).
- Status 1: Order Confirmed
- Badge: CONFIRMED
- Progress Bar: Step 1 Active (Order Confirmed).
- Alert Message: "Status: Order Confirmed & Processing — Assigning team soon."
- Buttons: Reschedule Slot (Primary , **Cancel** (Secondary)

The screenshot displays the HOURX app interface for an order confirmation screen. At the top, the HOURX logo is on the left, and navigation links for 'Services', 'How it Works', and 'Support' are on the right. A user profile icon and name 'Dhana J.' are also visible. Below the navigation bar, a back link '← Back to All Orders' is present. The main content area features a card for 'AC Repairs & Installation' with a 'CONFIRMED' badge. The card includes the order ID 'ORI7876744995490370' and creation date 'Aug 28, 2026 at 12:48'. A progress bar shows three steps: 'Order Confirmed' (active), 'Team Assigned', and 'Order Completed'. Below the progress bar, a status message states 'Status: Order Confirmed & Processing' with a note about assigning a service team. The 'SCHEDULE & LOCATION' section shows the service time slot '2026-08-29 | 10:00 - 12:00' and the service address 'Al Owais Building, Dubai, United Arab Emirates'. The 'SERVICE OPTIONS & SPECIFICATIONS' section lists the service type as 'AC Diagnostics & Repair' for 1 unit. The 'PAYMENT SUMMARY' section shows a total amount paid of 194.25 AED, including taxes and service fees. At the bottom of the card, there are two buttons: 'Cancel Booking' and 'Reschedule Slot'. A footer bar at the very bottom indicates 'You have 1 unfinished booking in your cart' with a 'Manage Booking' button.

12. Customer Review Modal Specifications

- Trigger: Opens when the user clicks "★ Share Your Feedback" on a completed order, or automatically upon viewing an unreviewed completed order.
- Layout: A clean, centered white card over a dark, transparent background.
- Section A: Heading & Closing
- Title: "Share Your Feedback"

The screenshot displays the HOURX mobile app interface for a completed order. At the top, the HOURX logo is on the left, and navigation links for Services, How it Works, and Support are on the right. A user profile for Dhana J. is also visible. The main content area shows a card for "AC Repairs & Installation" with a "COMPLETED" status. A progress bar indicates the order is confirmed, team assigned, and completed. Below this, a status message confirms the order was successfully completed on Aug 25, 2026. The "SCHEDULE & LOCATION" section shows a service time slot of 10:00 - 12:00 on 2026-08-25 and a service address at Al Owais Building, Dubai. The "SERVICE OPTIONS & SPECIFICATIONS" section lists the service type as AC Diagnostics & Repair for 1 unit. The "PAYMENT SUMMARY" section shows a total amount paid of 194.25 AED, including a service fee and taxes. At the bottom, there are buttons for "Share Your Feedback" and "Book Again". A dark blue footer bar contains a notification about an unfinished booking and buttons for "View Details" and "Manage Booking".

15. Service Image Click Navigation

Please ensure that clicking the image redirects the user to the service page.

16. Service Detail Image Slider Arrows

Image Slider Requirement: Include intuitive left and right navigation arrows on the service cards to enable smooth horizontal scrolling.

17. Order Management Export Options

Update the Export button to support multiple selection criteria:

Current Page – Exports currently visible records.

All Orders – Exports total order records.

Custom Date Range – Exports orders filtered by selected start and end dates.

18. Backend Image, Drag, Reorder & Zoom Controls

Update the image section in the service module to support:

Drag-and-Drop Sorting: Enable reordering of images by dragging.

Zoom Preview: Include a plus (+) icon overlay on each image to zoom in and preview in full size.

19. Policy Pop-Up

- **Remove** the policy popup from the 'Add to Booking' action completely.
- **Show it only** when the user clicks **Checkout** to confirm payment.
- **Design:** Stick strictly to the original modal layout provided in the reference image. Only update the colors and text to match the website theme.

20. Language Error

- **Issue:** The service title is displaying in Chinese (日常清洁) when the website language is set to English.
- **Fix:** Ensure the service title dynamically updates to match the selected site language.

21.

- **Issue:** The 'Reschedule Instead' button is not highlighted when date or time options (e.g., 'I want to change the date or time') are selected.
- **Fix:** Automatically highlight the 'Reschedule Instead' button (e.g., using a primary theme color or active border style) whenever time-related refund reasons are selected.

Request a Refund

Order ID

BA202608310944444491_1

Refund Reason

☐ My plans changed

☒ I want to change the date or time

☐ Service provider concern

☐ Price concern

☐ The service time no longer works

☐ Other reason

We're sorry this booking no longer works for you. Please review the cancellation and refund rules before confirming.

Reschedule Instead

Full Refund Amount

4.05 AED

Only full refunds are currently supported.

Cancellation & Refund Confirmation

Non-refundable Stripe processing fee: 1.20 AED

This submits a full cancellation request; the amount returned to the original method is shown above.

[Read Full Terms](#) · [Read Privacy Policy](#)

☐ I agree to the cancellation policy, Terms & Conditions, and Privacy Policy.

Keep Booking

Submit Refund Request

22. Please update the order status flow:

- First, please remove the strikethrough styling on status changes. Second, for any refunded orders, replace the "Service Completed" status with "Refunding" (while in progress) and "Refunded" (once complete).
- If the cancellation happens after a team has been assigned, you can either replace "Team Assigned" or "Service Completed" with the refund status updates.

23.

- **Issue:** Cancelled & Refunded orders are currently displaying 'Service Completed'.
- **Fix:** Change the status label to 'Cancelled' or 'Refunded' whenever an order cancellation takes place.

23.

- Update the font style, weight, and text formatting for the **HOURLX HOME** branding text.
- **Details:** Please ensure it aligns with the updated font style specifications across the website.

24.

- **Confirmed bookings** should show as '**In Progress**' instead of 'Action Needed'.
- '**Action Needed**' should only apply to newly created bookings with '**Continue the booking**' instead of '**manage booking**'

25.

Quick fix needed for back-end notifications: Customer Service agents are not getting notified when a confirmed booking gets assigned to a team and a customer reschedule a booking. Please enable back-end alerts for CS whenever a team assignment occurs.

27.

Quick fix for the social links: The Instagram icon on the website is currently linking to a broken/unavailable profile page. Please update the href link to point to our official Instagram page.

28. Orders Page – Status Logic

Please filter orders into 5 tabs based on status, as below:

1. All Orders

Show every order, regardless of status.

- Unpaid → button: "Continue Booking"
- Confirmed → buttons: "Reschedule" + "Cancel Booking"
- Completed → button: "Book Again"
- Cancelled → button: "Book Again"
- Refunded → button: "Book Again"
- Refunding → button: "Book Again"

2. Action Needed

Show only orders with status **Unpaid**.

- Button: "Continue Booking"

3. In Progress

Show only orders with status **Confirmed** (confirmed bookings only).

- Buttons: "Reschedule" + "Cancel Booking"

4. Completed

Show only orders with status **Completed**.

- Button: "Book Again"

5. Cancelled

Show orders in the following order:

- Refunding
- Refunded
- Cancelled by Hourx (no refund, per policy criteria)
- Cancelled by Customer (no refund, per policy criteria)

29. Orders Page – Update to In Progress Tab

For orders under the In Progress tab (status: Confirmed), replace the two separate buttons — "Reschedule" and "Cancel Booking" — with a single button: "Manage Booking". When the user taps Manage Booking, open a popup/page showing:

Tapping Manage Booking opens a popup showing:

- Booking summary — service name and current schedule.
- Reschedule section — new service date field + new time slot dropdown, with a note that availability and the minimum advance-time rule are checked on submit.
- Cancel Booking(primary).
- Confirm Reschedule option — styled as a neutral/outline button, not red.

The screenshot shows a 'Manage Booking' popup on a mobile app. The background is a blurred view of the 'Orders' page with a search bar. The popup is white with rounded corners and a close button (X) in the top right corner. It contains the following elements:

- Regular cleaning** (Service name)
- Current schedule: **2026-08-31 15:00-17:00**
- New service date** field: 2026-08-31
- New time slot** dropdown: Select a time slot
- Availability and the minimum advance-time rule are checked when you submit.
- Two buttons at the bottom: **Cancel Booking** (outlined) and **Reschedule** (solid dark blue).

30. Order/Booking Details Page – Change Notes

- Add Address to Contact details. Show the customer's address together with phone and email in the contact section.
- Service booked box should also contain the Specifications. The "Service booked" box should show the service specifications (duration, number of people, add-ons, etc.) under the service name, as shown in the reference screenshot.
- Add a Status box, updating per stage. As shown in the reference screenshot: e.g. "Status: Team Assigned – Our team has been assigned and is preparing for your scheduled time slot."

✓ Booking-Confirmed

2 Team-Assigned

3 Service Completed

✓ Status: Team Assigned

Our team has been assigned and is preparing for your scheduled time slot.

31. Booking Details Page – Feedback Prompt on Completed Orders

- When a customer opens the Booking Details page for a **completed** order, a "Leave Feedback" popup should appear automatically, prompting them to review the service.
- Once the customer has submitted a review, the popup should no longer appear for that order.

The screenshot shows a booking details page for a completed order. At the top, a progress bar indicates the status '3 Service completed'. Below this, the total amount '5.25 AED' is displayed. A section titled 'Contact & notes' contains a table with customer information:

Customer	Tester j
Phone	558461101
Email	j@gmail.com
Booking notes	1

At the bottom of the page, there are two buttons: 'Leave Feedback' and 'Book Again'.

32. No Customer Notification After a Supplier Is Assigned

- Issue: After a supplier is assigned to a booking, no notification is sent and the customer does not receive the updated booking status.
- Required improvement: Automatically update the booking status and notify the customer as soon as a supplier has been assigned.

33. The “Book Service” Button on the Home Page Is Not Prominent Enough

- Issue: The main “Book Service” call-to-action button on the home page is not visually noticeable enough, which may make it harder for customers to start a booking.
- Required improvement: Make the “Book Service” button more prominent by improving its size, color contrast, placement, and surrounding spacing.

34. Service Location – Saved Addresses

- Saved addresses should each have a **Delete** option, alongside the existing Edit.
- Address cards should display as compact boxes at the top, so the customer can quickly compare and select one.

35. Cancellation Flow - Booking Confirmed by Customer

1. If a customer cancels after Booking Confirmed:

Booking Confirmed -> Refunding -> Refunded

2. If a customer cancels after Team Assigned:

Booking Confirmed -> Team Assigned -> Refunding or Refunded (based on status change at the time of cancellation)

If possible, please apply the same flow as in point 1 here as well.

36. Orders Page - Status Logic

Please filter orders into 5 tabs based on status, as below:

1. All Orders

- Show every order, regardless of status.
- Unpaid -> button: "Continue Booking"
- Confirmed -> buttons: "Manage Booking"
- Completed -> button: "Customer Review" "Book Again"
- Cancelled -> button: "Customer Review" "Book Again"
- Refunded -> button: "Book Again"
- Refunding -> button: "Book Again"

2. Action Needed

- Show only orders with status Unpaid.
- Button: "Continue Booking"

3. In Progress

- Show only orders with status Confirmed (confirmed bookings only).
- Buttons: "Manage Booking"

4. Completed

- Show only orders with status Completed.
- Button: "Customer Review" "Book Again"

5. Cancelled

- Show orders in the following order:
- Refunding
- Refunded
- Cancelled by Hourx (no refund, per policy criteria)
- Cancelled by Customer (no refund, per policy criteria)
